## FILM POLICY

We do not print films as a matter of course for every exam. We will print 1 set of films at the ordering physician's request only. Each subsequent set of films will be printed at a charge of \$15.00 per sheet of film required. MRI scans can require from 5-10 sheets of film or more depending on the anatomy covered.

Please be advised that MRI scans take 24 to 48 hours to retrieve and film. We do not store films. Do not return them to our facility. They may be stored at your ordering physician's facility, or you may keep them.

Thank you for your cooperation in this matter.

I have read and understand Regional Imaging's film policy.
